Hello Carolyn,

Welcome to your Personality Profile, please check the birth details of your horoscope are correct. This report sets out to give you an assessment of your personality and character development by interpreting the different parts of your birth chart.

Your birth chart represents a map of the solar system for the exact time and place of your birth, it's a blueprint of your personality and represents a set of potentials, with the contents being added through the experiences of life.

Most people are aware of the Sun's zodiac sign that they were born under, however, it's not only the Sun sign that exerts a powerful influence over the birth chart and character. The Rising Sign, the Moon, the planets, the angles they form to each other, called 'aspects', their zodiac sign and house positions also play an important role.

As you read through this analysis, you will occasionally notice that contradictory information may be given. This is to be expected, as each individual's character is extremely complex. For example, at times we can be aggressive and confident, and at other times withdrawn and moody. And if planetary patterns seem to be repeated time and time again, that's because the analysis is focusing on a particular and very important strength or weakness within your character.

The birth chart is comprised of three basic factors.

- 1.** The Planetary Aspects (angles) formed between the Sun, Moon and planets, as seen from the Earth, are represented by the coloured lines in the centre of your chart and the intensity is indicated by the number of stars each aspect is given in the report.
- 2.** Each planet is located in a particular Sign of the Zodiac. The symbols for each Zodiac Sign are placed around the edge of the birth chart, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces.
- 3.** Each planet is also located in a particular House, labelled 1 to 12 in the birth chart.

How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. Your birth chart, is indeed unique, although many people may have, for instance Mars in Scorpio, or Venus in Capricorn, and hence have certain traits in common, the number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more important the connection. The keys for the planets and the other symbols and terms used are given at the back of the report.

Personality Profile Interpretation

Your birth chart shows the exact positions of the planets at your time of birth. It also tells you the sign of the Zodiac that was rising at your time of birth, known as your 'ascendant'. How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. The interpretation begins with your overall character and temperament.

Carolyn's character

Carolyn's energy level

You have predominantly hands-on attitude towards personal and professional situations and crises. You react swiftly and spontaneously, taking the initiative in order to control events and steer them your way. Indeed, you need to feel in control to be really happy. You have a lot of dynamic sometimes irrepressible energy and a corresponding fund of enthusiasm. Inclined to be hot tempered, you can flare up quickly and easily. However, just as easily, you forgive and forget, for your energy is too fast-flowing and therefore continually regenerative, to become stuck on things which rapidly become overtaken and superseded by time.

Carolyn's emotions

You might find it difficult at times to relate to, and appreciate, others on an emotional and instinctive level. This may also apply to your experience of your own inner life. Try to maintain a more permanent sensitivity towards your own and others feelings.

Carolyn's temperament

Carolyn's adaptability

At times you might fail to appreciate others' psychological subtleties, and this could make you impatient, even oblivious toward the complexities and eccentricities of that unique thing called individuality.

AS

The Ascendant or Rising Sign

Represents the area of life concerned with your sense of self-identity, the impression you give and how others see you.

AS in ♃

Self identity

With the focus on fun, harmony and compromise you enjoy being surrounded by friends. Possessing an easy going charm, you generally go out of your way to avoid conflicts. You'll also find that, with little persuasion, you can usually get what you want as others realise that you're willing to give as much as you receive. However, enjoying the good things of life, your lavish tastes may quite often exceed your budget.

AS ♋ ♀ ★★☆☆☆

Persuasive

You're capable of absorbing information and knowledge, and possess the ability to explain what you have learned in a clear and understandable way. You're a good communicator and enjoy situations where you can express your views and air your intellectual knowledge.

You're persuasive rather than argumentative. You have at least an intellectual understanding of who you are and what you want out of life, but the energy to put this into practice, and to understand your deeper motivations, will have to come from some other area of your chart.

AS ♁ ♃ ★☆☆☆☆

Overcoming obstacles

You have some difficulty in expressing yourself as freely as you would like. Occasionally you tend to be hesitant and reserved when meeting new people a reaction that you find intensely frustrating since you don't feel that you're getting across the real you.

Perhaps when you were a child you felt unable to express yourself openly to your parents and your natural childhood enthusiasm had to be tempered with rules and limitations on your behaviour.

In other words the importance of living up to your duties and responsibilities has probably been programmed into you from an early age, but now often you feel that this conflicts with your need to be yourself.

Success in your career and stability in your home life are important to you and will eventually be achieved but you may first have to overcome some obstacles and disappointments before you finally get there.

AS ♁ ♃ ★★★★★

Focus

You can be extremely sensitive to criticism. Unfortunately, this can occasionally make you miss opportunities to advance yourself, possibly because of a fear of failure.

This aspect also occasionally inclines you to daydream about your potentials more than actively seeking to realise them. Perhaps communication with your parents was unclear or confused in some way. Maybe you didn't get the support you needed in choosing a career possibly even now still finding it difficult to know just what it is you want out of life.

As a result, at times you may tend to spread yourself too thinly and become involved in too many diverse activities, often taking on more than you can efficiently handle. Try to focus on specific fields or goals.

The Sun

Your essential self, the centre of your being. It indicates what you are striving to become as an individual.

Vitality

You're basically a steady, reliable type of person, with strong willpower. Once you have set your mind on a course of action, you can carry it out with persistence and determination. The fixed nature of the sign, however, makes it difficult to change your course once you have started, even if it becomes apparent that it's wrong for you.

Persistence can turn to stubbornness. Like the bull, you may be patient and slow to anger, but when roused can be furious. Often your anger can be sparked off by feelings of jealousy or possessiveness.

12th house

Surrendering to forces that are beyond your control, a higher power or ideal. Greater self realisation and spiritual goals. Large institutions such as hospitals and prisons, where many people end up if the self-surrender described above is overdone, or made to the wrong ideals.

☉ in 12th House

Self expression

You're aware that your conscious self is only part of your total being, and that below the surface is a more spiritual dimension. You're very sensitive to the atmosphere and feelings that surround you, and this may manifest as some form of psychic ability. You would certainly benefit from some form of meditation that allows you to get in touch with the deeper levels of your mind.

☉ ♋ ♀ ★★☆☆☆

Attractive

You are physically very attractive. Usually this a blessing, but at times it causes you problems. There are times when you would rather not be noticed, but this seems to be impossible and you appear to be your own worst enemy. This may cause you to feel uncomfortable and angry and insecure, and you will find it difficult to articulate your feelings because you are shy and soft-spoken by nature. Be aware that this will be a continuing problem. Learn to use it to your best advantage whenever possible and try to develop strategies so that you, can maintain your privacy and peace of mind.

☉ ♁ ♃ ★★★★★

Obstacles

You may find that occasionally life will challenge your attempts to express your true nature. Obstacles and delays may occasionally block your path to success. You may blame your difficulties on fate or karma, and this may be true to some extent, but the lesson to be learned is how to meet this test and turn it into something positive. You are being taught the need for patience and restraint, that anything worthwhile has to be won through constant effort and discipline before you can reap the rewards.

☉ ♁ ♃ ★★★★★☆

Success

You have a deep spiritual awareness. You're a born idealist, with a vision of how the world could be, and even if you can't change the world you'll try and make your own life as perfect as possible. Indeed, it's surprising how many people like you succeed in making their dreams come true.

☉ ♉ ♀ ★★★★★☆

Self assured

You have a strong, often uncompromising willpower. As a result you'll occasionally find yourself in ego battles with others.

At certain times during your life, your self image or sense of purpose is likely to undergo radical transformation.

At the time, such changes may seem painful and difficult to handle, but you must remove the old in order to make way for something new, and in doing so you'll eventually emerge as a stronger and more self assured individual.

The Moon

Represents the emotional and compassionate side of your nature and your immediate emotional reaction to life pleasures and problems. It also indicates attitudes instilled in early childhood.

Habits

You're naturally persuasive and can easily attract others to you. You react very quickly to situations around you, but remember to look before you leap!

You're potentially volatile and overpowering, but sincere and loving as well. You have an enthusiasm for life, and a naturally direct approach, but you may occasionally need to develop patience. You may be patient and understanding, but if you're caught unexpectedly, or your feelings are hurt, you can surprise yourself and others with the strength of your anger and aggression.

Attitudes, emotions and specific needs

Your emotions are extremely sensitive to your surroundings, and periods of seclusion will be necessary in order to keep your emotions well balanced. Meditation or relaxation techniques would work particularly well for you. It's not that you are antisocial, it's just that these periods are necessary for your emotional well-being.

Your feelings may be strongly affected by memories from your past. You may also have some connection with institutions such as prisons or hospitals. In fact, you can be a source of caring and comfort to people who are in such places, but you'll have a hard time to stay objective and not becoming too involved.

Emotional uncertainty

You have a strong imagination. You're able to absorb information quickly and therefore learning comes fairly easy to you.

However, at times, your emotions may at times overrule your common sense, clouding your thinking and making it difficult for you to rationalise and think clearly. At other times you may think too heavily about what should simply be experienced as an emotion. Try to achieve a balance between the two, the best thing to do is to go with the flow, go with how you feel.

Emotional support

You're both generous and sympathetic towards others with a genuine concern for those in need. Any personal ambitions you may have will be directed by a need to contribute something positive which benefit others as well as yourself. You learn something positive from all your experiences and this optimism and faith helps life to work in your favour with things generally working out well for you.

Emotionally serious

Your early home life and conditioning will probably have given you a deep sense of responsibility and the need for self-discipline which will always be there. Even if you rebel against it at times, you still take your responsibilities seriously.

Emotionally you may be rather reserved, perhaps even inhibited in some ways and you'll need to feel completely secure before you reveal your deepest feelings to anyone. Nevertheless, you always have a ready shoulder for others to cry on.

Mercury

Represents your communication skills and how you think and receive information from others.

Mentality

Your communications with others you will be fiery, impulsive and at times, rather impetuous. You'll pick up quickly on ideas and you can express yourself energetically and forcefully, but perhaps too forcefully at times. Nevertheless, if this impulsiveness can be controlled, your mind will be sharp and penetrating with the ability to communicate directly with a minimum of waffle.

However, you may need to develop a more objective attitude towards your opinions. That's because you do occasionally have a tendency to identify too strongly with your own thoughts and ideas, regarding a challenge to them as a direct challenge to yourself.

Communication skills

You may occasionally find that you're influenced by irrational or disturbing thoughts rising up from the depths of your mind, resulting in panic attacks or the feeling that you are not always in control. However, whilst the unconscious is the dumping ground for experiences we would rather forget, and feelings we would rather not admit to, it can also be the source of creative imagination and inspiration.

You'll need to find some way of exploring your unconscious, through meditation or psychotherapy. In this way you can bring to the surface the memories of unpleasant experiences so that they can be examined and dealt with. Clearing away accumulated psychic or emotional rubbish in this way will help you to gain control of your own thought processes, and enable you to make creative use of your psychic sensitivity and powerful imagination.

Practical

Your mind is generally practical and organised. As a result, you're able to set yourself realistic goals, which you can then work towards with persistence and determination.

You also have the ability to apply your mind to disciplined study, often bringing your own creative interpretation to whatever subject you are interested in. You don't voice your opinions unless you're sure of your ground, but when you do, you are able to make constructive use of every piece of relevant information that you possess, and to communicate clearly and authoritatively.

Inventive

Your mind works so fast that you may consider other people's thinking to be slow by comparison. You can analyse problems quickly and make logical leaps that others may labour over for a long time. When you reach a conclusion it seems as if the answer just came intuitively, when it was in fact the result of extremely fast analysis. You have an original and inventive mind, open to new ideas and new ways of thinking and you seek new knowledge avidly.

Venus

Represents how you express your emotions within love, marriage and other personal relationships. It also indicates your attitude towards money, possessions and your aesthetic values.

Capacity for love

You have a passionate and impulsive nature, especially in matters of the heart. But often, without realising it, you can also be somewhat inconsiderate to those you love. You want to do things your own way.

11th house

Where you look to the future your hopes and wishes. Your friends, how you act in group situations and the kinds of groups to which you are attracted.

Love and what you value most

You enjoy being surrounded by friends and loved ones. This placing gives you a sense of ease and charm in social gatherings. Many of your friendships and relationships will be formed as the result of being part of a group or organisation through which you can share your mutual interests. For you, a meaningful relationship must be based on mutual respect and genuine friendship, in which the two of you help each other to grow and become more than you already are.

Unrealistic expectations

You can be overly idealistic in your approach to relationships. There may also be times when you'll expect your partner to accept you with all your faults, without a word of complaint on their part or any effort to change on yours.

Very few people, except perhaps a saint, can measure up to the high expectations you set for a relationship. When things start to fall apart, you'll probably not even notice that anything's wrong until the whole thing dissolves away before your eyes.

There may also be times when you may find yourself led into actions that you later regret. This is particularly true in financial matters, so you must make sure that all your dealings are open and above board. Although some people seem to be able to get away with murder, anything shady or underhand will almost inevitably work out badly for you.

Mars

Represents your sex drive, stamina and how aggressively you assert yourself and express your desires.

♂ in II

Driving force

The aggressive side of your character will probably be expressed mentally and verbally. You'll not be afraid to speak your mind and say what you think, even if this truth may occasionally hurt others.

At times, however, you'll also tend to identify too strongly with what you think, and regard an attack on your ideas as a personal attack on yourself. When you feel threatened you'll defend yourself through words, which you're generally able to use as a weapon.

You're motivated mainly by what you think, and when your mind is stimulated you have a tireless energy to investigate and learn as much as you can.

1st house

The area of life concerned with your sense of self-identity.

♂ in 1st House

Stamina and assertiveness

You'll have plenty of energy and will be able to assert yourself directly and if necessary, rather forcefully. Restrictions on your personal freedom will rarely be tolerated. You're certainly not the type to sit quietly in a corner you need to let everybody know that you're around!

♂ ✖ ♃ ★★★★★

Enthusiasm

You have positive energy and drive to achieve something worthwhile with your life. However, whilst you're not afraid to defend your own rights and assert your opinions, you can also be sensitive to the needs and opinions of others.

You have considerable physical and mental energy and you generally set yourself ambitious and demanding goals, but since these goals are generally based on forethought and planning you're usually able to maintain the energy and enthusiasm necessary to see them through to the end.

In love relationships, your physical desires are strong, but they are best satisfied with someone to whom you can relate on an intellectual level as well as a physical level.

♂ ♀ ♃ ★☆☆☆☆

Meeting challenges

You may occasionally find that your attempts to fulfil ambitions are blocked by circumstances, resulting in periods of intense frustration.

At times you may even feel that others are deliberately preventing you from achieving your aims, but if you're honest with yourself, the truth is that generally your biggest obstacle to success is yourself. Just because an obstacle is placed in your path doesn't mean that you have to instantly give up! Indeed, you have a great potential for success if you can only learn to discipline your irritation and frustration, and regard obstacles as challenges rather than a defeat.

♃

Jupiter

Represents expansion, your sense of fun, optimism and generosity. It also gives information concerning your religious and philosophical beliefs.

♃ in ♈

Optimism and understanding

You will need to maintain a high energy level, coupled with a sense of self-esteem, in order to make the most of opportunities that come your way. This will be easy enough when things are going well, at such times you'll feel confident and determined but when things go wrong your determination may dissolve or you could react with anger.

You're an independent individual and you need the freedom to pursue your own goals and what's more, you don't like to be obstructed on the journey.

♃ in 12th House

Optimism and understanding

No matter how dire your circumstances may become, you have a deep-seated faith that life itself will provide for your needs, and indeed you'll more than often be saved in the nick of time from impossibly difficult circumstances by what appears to others to be good luck, but in fact it's luck which you've created from your own thoughts and actions.

♃ ♁ ♃ ★☆☆☆☆

Motivation

You are able to work with persistence and determination toward your goals, adapting your methods and approach in the light of experience.

Whilst you are ambitious and determined, you'll still tend to look on the bright side in the face of adversity or set-backs. In other words, you are generally capable of maintaining a creative balance between optimism and realism, always ready to take advantage of good fortune and opportunity, but also disciplined enough not to overreach yourself, and remain within the bounds of what is possible and realistic.

♃ ♁ ♃ ★★☆☆☆

Idealistic

You have high ideals, but you may lack the discipline required to make these ideals a reality in your own life. Understanding and sympathetic to others, you may at times unknowingly allow others to take advantage of your good nature.

If you can discipline your imaginative mind, perhaps through meditation or self-analysis, you could gain a great deal more understanding about yourself.

♄

Saturn

Represents your sense of responsibility and limitations. It shows how you react to setbacks and the areas in which you are most fearful and insecure. Nevertheless, it is also the planet that teaches the important lessons of life and can become your greatest strength.

♃ in ♈

Challenges

You will be forced to confront your fears and develop your own inner strength in your search for meaning in life, which will be sought either through travel or wholly within yourself. At some point you'll probably experience disillusion with traditional religion, resulting in either scepticism or a search for deeper and more enduring values.

You may also find it difficult to tether yourself to terra firma for too long, wanting to float away on a sea of freedom. Unfortunately, responsibility catches up with most of us at some point in our lives but you'll probably resent it more than most.

8th house

Relationships or partnerships in which you relate to others on a deeper, more emotional level, sex, beginnings and endings, joint resources and money held in common, and inheritances.

♃ in 8th House

Setbacks and insecurities

You are likely to find that you experience some difficulty sharing with others, either on a business or professional level as well as when you are dealing with emotional issues. At times you may find that you don't really trust others enough to open up emotionally, or to receive what they have to give to you. Possibly, there's a fear of losing your self-identity if you allow your emotions to flow freely. Perhaps the death of someone when you were very young caused this fear.

♃ ♀ ♃ ★★☆☆☆

Inner conflicts

At times during your life you'll have to find a balance between the need for personal freedom and the need for security. At different times you'll tend to express one need and deny the other, but as you develop as an individual you'll learn to integrate freedom and security.

Chaotic or confused conditions annoy you. Even when you make major changes in your life, you still like to hold onto a bit of the old structure for the sense of security that it provides.

♃

Uranus

Represents the expression of your need for freedom and independence and the way you choose to experiment with life. Uranus is the motivation behind your future dreams.

♃ in ♈

Independence

Stimulating search for truth means some time in your life you'll feel a strong need to break free of old beliefs to find new philosophical ideals. If you keep an open mind, you'll learn a great deal. You'll also be able to bring exciting new concepts and ideas into whatever field you're working in, although your restless search for knowledge may cause you to suddenly abandon work before it's completed. Travel in foreign lands and meeting people of other cultures will attract you.

 in 8th House

Individuality

You may occasionally have an overwhelming urge to break free from restrictions and attachments imposed by others.

Sudden changes of fortune are also likely to occur and some phases of your life may end suddenly and irreversibly. The meaning of life and death may fascinate you, but any understanding of these matters will not be sought along conventional lines.

Neptune

Represents your spiritual self, dreams, imagination and creative abilities.

 in 

Idealism

Between 1984-1998 political, financial and environmental changes occur, as this generation will be forced to incorporate idealism with practical reality. This is therefore a time when many of the world's problems could start to be solved and dreams turned into concrete, solid form.

 in 8th House

Intuition and uncertainty

You need to be completely open and honest with anyone you are emotionally involved with. In all business and financial matters you'll need to take care that everything is open and above board, otherwise you could find your financial resources being dissolved away.

   ★★★★★

Generational influences

Starting in 1942 and for the next hundred years, everyone born during this time will be affected by the changes taking place in the world's collective psyche. The keynote of this entire period will be the complete transformation of our existing scientific, religious and political belief systems.

Pluto

Represents the secretive side of your nature, your obsessions and shows us how to come to terms with and deal with your deepest insecurities.

 in 

Forces of change

Pluto was in Scorpio between 1984-1995. You were born at a time when world-wide conflict, wars, famine and plague could reach a peak before the birth of the new age of Aquarius. This period has indeed seen the spread of AIDS, a sexual disease, throughout the world, hunger, famine and numerous national and international conflicts.

6th house

Your attitude toward, your working environment. Health and the interaction of your mind and body to maintain the efficient (or inefficient) working of your physical body.

♃ in 6th House

Secrets, powerful obsessions

Any illness should be examined to see if it's not connected to some other part of your life, or the manifestation of hidden emotional problems or conflicts.

At work, you have a powerful will that struggles against all the odds. You're conscientious and hard working, but your determination to prove this to yourself and to others can become obsessive and at times, even destructive.

You will occasionally be forced to face your deepest fears some-times with accompanying emotional pain. You may feel at times that a part of you has died, but the death of an old way of being or feeling usually has to occur in order to make way for something new to grow.

MC

The Midheaven

Represents your ambitions and potential for achievement.

MC in ♋

Career

Your career goals and objectives may undergo sudden changes but beware the tendency to needlessly disrupt a secure position simply for the sake of change, or out of restless boredom. Team projects interest you more than going it alone.

♁ in ♈

Future growth

Indecision can lead you to consider the needs of others first, you should do more for yourself, become a stronger person, more of a self-starter.

♁ in ♌

Developing experience

You have to learn to relate to others and develop an ability to share.
